①	All models: Replace decal if worn or unreadable. Kits GBJK5A, GBJK10A, GBJK20A contain two decals. Make sure to use the correct decal for your jack model.																												
②	Important: • Make sure ram is fully retracted before checking oil level or adding additional oil. • Use only Enerpac HF Series hydraulic oil. • Jack hydraulic reservoir is full when oil level is up to - but not above - the oil fill hole.
