MINING MAINTENANCE RE-ENGINEERED

SC-SERIES

ENERPAC 

100 ton Aluminium Cylinder Cordless Toolbox Set

ENERPAC 

▼ SC100RARPC

100 TON ALUMINIUM CYLINDER CORDLESS PUMP TOOLBOX SET Maximum Operating Pressure: 700 bar	Set Model Number SC100RARPC	Quantity
Cordless Pump, 2x Batteries, and Charger * included	XC2404M	1x
Gauge Adaptor Assembly with G2535L Pressure Gauge	GA45GC	1x
High Pressure Hose 3 metres (2x 3/8" NPT)	HC7210	2x
Aluminium Cylinder, 1002 kN, 200 mm stroke, double-acting	RAR1008	1x
Female Half Coupler 3/8" NPT	CR400	1x
Male Half Coupler 3/8" NPT	CH604	2x
Aluminium Carrying Box	—	2x

* Charger supplied with multiple power cords to enable use in multiple regions.

SC-Series Toolbox Sets

Set Weight (2 toolboxes):

35 and 36 kg

Toolbox Dimensions:

800 x 558 x 552 mm

Maximum Operating Pressure:

700 bar

- Ideal for mining maintenance jobs including crawler tensioning
- Cordless XC2 Hydraulic Pump - high-capacity with extended run times
- Aluminium cylinder for enhanced portability
- Foam inserts protect and hold tools securely in place
- Two stacking lockable boxes keep tools organised and stored securely
- Includes essential ancillaries for immediate deployment.

Compact Force Toolbox Set with Hand Pump

▼ SCMRSMPPH

COMPACT FORCE TOOLBOX SET WITH HAND PUMP Maximum Operating Pressure: 700 bar	Set Model Number SCMRSMPPH	Quantity
Lightweight Two-Speed Hand Pump	P142	1x
Gauge Adaptor Assembly with G2535L Pressure Gauge	GA45GC	1x
High Pressure Hose 3 m (AH604 Male Half Coupler + 3/8" NPT)	HA7206	1x
High Pressure Hose 3 m (2x CH604 Male Half Coupler)	HC7206C	1x
Low-Height Cylinder, 45 kN, 6 mm stroke	RSM50	1x
Low-Height Cylinder, 101 kN, 11 mm stroke	RSM100	1x
Low-Height Cylinder, 201 kN, 11 mm stroke	RSM200	1x
Male Half Coupler 3/8" NPT	CH604	1x
Adaptor (1/4" NPT Male to 3/8" NPT Female)	FZ1055	1x
Aluminium Carrying Box	—	1x

SC-Series Toolbox Sets

Set Weight:

20 kg

Toolbox Dimensions:

800 x 558 x 552 mm

Maximum Operating Pressure:

700 bar

- Ideal for assisting the removal of stubborn wheels from axles
- Three compact hydraulic cylinders apply force in tight spaces
- Two-speed hand pump with simple operation provides high flow and precision
- Foam inserts protect and hold tools securely in place
- Lockable toolbox keeps tools organised and stored securely
- Includes essential ancillaries for immediate deployment.

Compact Force Cordless Toolbox Set – Wheeled

▼ SCMRSMPCW

- Ideal for assisting the removal of stubborn wheels from axles
- Three compact hydraulic cylinders apply force in tight spaces
- Cordless SC Hydraulic pump - Compact, lightweight, and precise
- Foam inserts protect and hold tools securely in place
- Lockable industrial-strength wheeled box keeps tools organised and stored securely
- Includes essential ancillaries for immediate deployment.

▼ Foam inserts, top and bottom.

COMPACT FORCE CORDLESS TOOLBOX SET - WHEELED Maximum Operating Pressure: 700 bar	Set Model Number SCMRSMPCW	Quantity
Cordless Pump, 2x Batteries, and Charger * included	SC1201M	1x
Gauge Adaptor Assembly with G2535L Pressure Gauge	GA45GC	1x
High Pressure Hose 3 m (AH604 Male Half Coupler + 3/8" NPT)	HA7206	1x
High Pressure Hose 3 m (2x CH604 Male Half Coupler)	HC7206C	1x
Low-Height Cylinder, 45 kN, 6 mm stroke, single-acting	RSM50	1x
Low-Height Cylinder, 101 kN, 11 mm stroke, single-acting	RSM100	1x
Low-Height Cylinder, 201 kN, 11 mm stroke, single-acting	RSM200	1x
Male Half Coupler 3/8" NPT	CH604	1x
Adaptor (1/4" NPT Male to 3/8" NPT Female)	FZ1055	1x
Wheeled Aluminium Carrying Box	—	1x

* Charger supplied with multiple power cords to enable use in multiple regions.

SC-Series Toolbox Sets

Set Weight:

38 kg

Toolbox Dimensions:

800 x 558 x 552 mm

Maximum Operating Pressure:

700 bar

Streamlined Mining Maintenance

Energac Mining Maintenance Toolboxes keep your tools at the ready in a

rugged, portable box so you can take everything to the job site, stay on schedule, and on budget.

Whether you need to apply hydraulic force in tight spaces, tension crawler tracks, or expertly tackle other maintenance tasks, you'll find a toolbox set tailored to your project.

Protect your tools, boost productivity, and keep everything organised and ready for immediate deployment – whatever the challenge, and wherever the job takes you.

A Choice of Tool Sets Tailored For Your Mining Job

SC-Series Mining Toolbox Sets are loaded with premium Energac tools, specially selected for tough mining maintenance jobs.

They make it easy to transport, organise, and protect your tools, ensuring you arrive on-site ready to tackle jobs like removing stuck wheels, tensioning crawler tracks, and many other maintenance tasks.

We've simplified tool selection by creating sets tailored for different types of project. Simply choose your set and order with just one part number.

Everything is supplied in tough lockable toolboxes for added security, and with foam inserts to hold everything securely in place.

Wheeled toolbox sets include heavy-duty off-road wheels for easy mobility across any job terrain.

THE RIGHT TOOL MAKES ALL THE DIFFERENCE

THE RIGHT TOOL MAKES ALL THE DIFFERENCE

Enerpac offers an extensive range of tools to ensure that even your most demanding applications can be undertaken with the highest degree of safety and accuracy. Whatever your requirement — lifting, pressing, cutting, punching, spreading or bending; you can be sure that Enerpac has the correct tool to do your job safely and efficiently.

ELITE TOOLS. FOR ELITE PROFESSIONALS.
